May 26, 2003 No. 6

Dear Jaclyn,

Hi! How are you?

You said you liked the CD which I sent you. Why did you like it? Tell me the reasons and please guess (Why did grandpa wanted it specially to share with you?)

Camsa hamnida = Thank you

Korean English

You know it's not so easy to convert a foreign pronunciation into English exactly. May be it's all right of " Com sum hum me da" But I like better to say " Camsa Hamnida" more easy and more simple, isn't it?

Good for you that you dream to stay in The Ritz in Korea someday! Your dream may come true or at least comes upgraded your life. Dream always higher and bigger with sincere ambition! "Boys and girles be ambitious!" This good words I leaned at my middle school.

A family tree? I did not know what that mean. but I guess that the same with family roots, right? I hope you can find a good roots at the library. You asked me " Do I know anything about the Chun family? You are so curious young lady!!! That's why I love you so much! I tell you the truth, you know, Korean have two big war involved last 20th century, like the 2nd World War and Korean War. So Many documents were destroied. That's why we hardly find any papers of personal matters. Specially the Korean war almost everything burned out, reallly nothing left in hand at all--- just like a huge tonado swept out all over the Korean Peninsula. Someday you may read the Korean history yourself. But fortunately I have a good memory regarding your great grandfather and great grandmother---my father's name was Chun, Sihyang and my mother's name was Kang, Siryul. They were so nice to me and my father was a succesful good business man and very richguy. And my mother was so generous smarter and beautifull lady as I ever knew! With love, Grandpa
