Dear Jaclyn,

How are you? Thank you for your first letter in the 2004. We made a good Pen-pal for last year because of that we never skiped any month. You know, it's not so easy to do so! That's all with your leadership and interesting of Pen-Pal. Thank you again. Let's do again in this Happy New year too!

I've got a new PC but still I have many problems to work with it. I couldn't use it well, so please understanding of hand writting. I will make it soon with someone's help.

I have a good birthday this year with grandma, uncle Tom, Aunt Christine and Carolyn in New York City. I received the new year "Sae-Bae" from uncle's family. You know "Sae-Bae" is a kind of respecting gesture to Parents or elders. Your mom may show you how to do the "Sae Bae". It's a good Korean customs in new year day.

After the "Sae Bae", we went to Manhattan to have my birthday dinner at "Kumgang-San" restaurant. "Kumgang-San" mean's Diamond Mountain, you know. The mountain is a most beautiful and famous one in Asia just like the Fuji mountain in Japan. I hope someday you may have tour to see the mountain. Anyway we had a good time!

After the dinner, we strolled to Rockfeller Center. There were so many many visitors from all of the countries in the world. You know, there was a tallest Christmas tree with splendid decorations and a few peoples enjoied on the ring of ice skating.

One of famous shows in New York is the Radio city Christmas Spectacular "the Rockettes". We saw it on the third day at 11:00 am. It was a fantastic show. I couldn't explain well it with my short vocabulary. I can tell you only it was just awesome! I have enclosed a part of the Program for your interesting.

Now, let's do Korean languege.

"You are beautiful" in Korean?

"Yebuda" "예쁘다" You know, most of time in Korean, we skip the words "you are" because of the dialoque between you and me, already each one knows that the other side is "you are" I think Korean are smart. Don't you think so?

Next "Korea" in Korean

"Han-Kook" "한국" It is "Han-Kook".

Not "Hadoboji" → "Haraboji" "Haraboji" You made a misspell, Grandpa = Haraboji is a correct one.

See next month!

With love Grandpa,
